

Stock No.542AA

Precision flat level (Grade A-AA)

- Grade A-AA is our company' s standard. The measurement accuracy of Grade A-AA is better than JIS Grade A.
- These levels can be used as measurement standards for various horizontality checks.
- These levels can measure the horizontality of cylindrical items.

■ Dimensional drawing Unit : mm

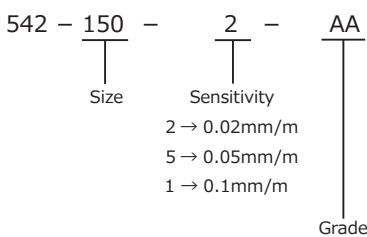

Features

- These levels are manufactured and inspected in accordance with JIS B 7510.
- These levels have an "air chamber" to adjust the length of the bubbles. Even if the bubbles are shortened or lengthened due to temperature changes, an inclination can be measured correctly by adjusting the length manually.
- The bottom of these levels (measuring planes) are hardened to increase wear resistance so that they can be used for a long time.

Material : SKS3 (measuring planes)
 Package : Wooden box ,Carton
 Accessories : Hexagonal wrench,
 Certificate of inspection, and Instruction manual.
