

Stock No.542A

## Precision flat level (Grade A)

- They are ideal measurement standards for angularity measurements.
- Grade A is the highest accuracy grade among all grades prescribed by JIS.
- These levels can measure the horizontality of cylindrical items.

■ Dimensional drawing Unit : mm

### Features

- These levels are manufactured and inspected in accordance with JIS B 7510.
- These levels have an “air chamber” to adjust the length of the bubbles. Even if the bubbles are shortened or lengthened due to temperature changes, an inclination can be measured correctly by adjusting the length manually.
- The bottom of these levels (measuring planes) are hardened to increase wear resistance so that they can be used for a long time.

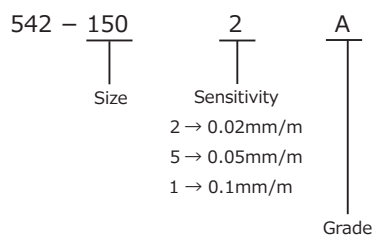

Material : SKS3 (measuring planes)

Package : Wooden box ,Carton

Accessories : Hexagonal wrench,

Certificate of inspection, and Instruction manual.

### Configuration of stock number
