

Stock No.583

Magnetic square precision level

- These levels can measure an inclination of columnar items.
- These levels have accuracy equivalent to JIS Grade A.

■ Dimensional drawing Unit : mm

Features

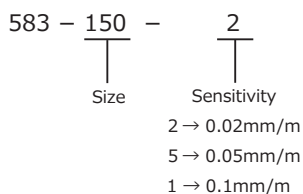

- By sticking magnetic planes to columnar items, the angularity can be measured with high accuracy.
- Since the magnetic plane sticks to an item to be measured, an indicated value can be read even when removing your hand. This allows for safer measurement in high places.
- A measured value can be read easily with the reflector.

Size	L	L 1	W	W1	W2
150	160	153	35	6.5	22
200	200	200	40	6.5	27
250	250	250	41	6.5	28

Material : Cast iron(Bottom) ,S50C (Magnetic plane)
 Package : Wooden box ,Carton
 Accessories : Hexagonal wrench, Certificate of inspection, and Instruction manual

Configuration of stock number

- * For the smallest model (150 mm), a reflector is not provided.
- * This level do not have an air chamber.

Product No	Stock No	Size (mm)	Sensitivity (mm/m)	Squareness (±μm)	Weight (kg)
09-02-150	583-1502	150	0.02	2.2	2.2
